GOVERNMENT BONDS FIRM.

The limited amount of business in the Stock Exchange to-day, the character of the transac tions made, the absence of either excitement or sharp fluctuations, leave little room for descripwriting. In fact, the entire market appears to be on edge, as if it awaited some new influence to give it fresh impetus. It would be too strong an expression to say that there is an undertone favorable to immediate higher prices, for the large speculators, who base their judgment on general conditions, are not satisfied with the aspects of the commercial situation and see in it few signs of business encouragement, and it would be ecause it has been made to appear so in the Agures that are quoted from day to day. Active speculation has been for the moment checked; first, because of the poverty of "the street customers," who have been recently caught on the wrong side, and, secondly, because of distrust. The examples of Western Union, Lake Shore, Atlantic and Pacific relegraph, Northwest common and Wabash have been well calculated to terrify any but bears bred in the bone, and it is but natural that a check to activity should have occurred, and that there should be a full in the battle in order to count the killed and wounded. Perhaps the situation cannot be more concisely described than is done in the remark of a banker, who jocosely observed today, "We are buils, sir, buils, but we belong to the short-horned breed." And this is now a very often expressed sentiment. It indicates an abiding confidence in the value of most speculative securities, but not to a degree that makes antagonism either profitably successful or remunerative. The changes in stocks were so slight that it is carcely worth while to call attention to them in detail, and we therefore refer the reader to the

POST OFFICE AFFAIRS.

The delayed steamships City of New York and City of Brookish arrived yesterday, and created considerable activity in the Post Office. It is to be hoped that milder weather will now prevail on

the Atlantic and cause less irregularity in the transatiantic mails. A petp into the Searchers' Department yesterday revealed to the HERALD representative some curious phases of letter and know that the law permits nothing to be affixed to a postal card. In spite of this provision correspondents continue to send fractional currency spondents continue to send fractional currency to their friends at a distance attached to the backs of postal cards. All such are held for postage or sent to the Dead Letter office. In one case the writer was shown a twenty-five cert note affixed to the back of a postal card with a postage stamp cut into four parts. This, o course, is neld under the rule that postage cannot be paid by mutilated or defaced stamps. Another had attached to the back a miserable counteriest ten cent stamp, with the following currous open letter:—"Please send me two red hot' papers, not boin of the same date. (Here follows address.) P.S.—The postal clerk will please not interfere with this as it is a counterleat." It is needless to say that the dignified Post Office Department does not see the humor of this corresiondence, but will consign it to proper collvion. It may be well to warn unsuspecting countrymen, also, of some old tricks in the shape of lottery swindles, not unlikely to be revived through the mails, although to the credit of postal officials it may be said that the infamous "sawdust" games have been almost on the department. An expose of the various games to obtain money under lake prefences through the mails will soon be given to Herald readers, that they may judy dard themselves against the devices of the centiled by the centiled process of the centiled process. their friends at a distance attached to the packs

WALL STREET NOTES

STOCK EXCHANGE ACTION-FAILURE REPORTED IN THE IRON TRADE-THE GOLD SITUATION-

SOME PACTS ABOUT C., C. AND L. C. The action of the Governing Committee of the Stock Exchange in advancing the rates of commission on stock transactions is not regarded with general favor, and it is leared will result in still further restricting business in an exceedingly dull period, when the principal profit lies in extremely short turns in the market.

REPORTED FAILURE IN THE IRON BUSINESS. It was learned from Philadelphia in the afternoon, through private advices, of the failure of an iron firm, involving habilities to the extent of \$400,000. Two large smelting companies are said to be involved, one in the western part of Pennsylvania, to the extent of \$50,000. The paper of the other has, it is said, gone to protest. The alleged bankrupt firms were doing business as commission merchants and agents, while the owners of several furnaces.

continues to attract attention, which is increased by recent advices announcing that American double eagles are at a premium on the other side.
This is attributed to the offer by the Prassian government of a premium to induce gold shipm thither. The following is a classification of the specie exports from this port for the week :-

C., C. AND L. C.

As we approach another interest date, February As we approach another interest date, February 1, inquiry arises as to the possibility of definition, and in the case of C., C. and I. C. has a peculiar significance, masmach as February 1 is the period of a second accrued interest payment upon the second mortgage bonos, in connection with which default is leared. Interest was defaulted upon August hast, and, under the terms of this mortgage, a six months' default in the payment of interest works a termination of the second mortgage her and gives the mortgages the immediate right of loreclosure. This question having arisen during the last lew days, the current instorian took advantage of the presence on the street jesterday of a gentleman belonging to that section of country with whiten C., C. and I. C. is identified and lamiliar with its belongings, to glean so he accurate information on this subject. It was learned from this gentleman, of which it may be said positively he knows whereof he speaks, there is grave apprehension that C., C. and I. C. will again default February 1 in the payment of interest on its second mortgage bonds, whereupon, that hen being an overdue obagation and consequently possessing the power of immediate forcelosure, it will become necessary for the Pittsburg, St. Louis and Checamat Rairoad, the lessees of C., C. and I. C., to seek such renef from the courts as will guarantee to them the full and undusturbed possession of their leaschool rights. The precise form of that application has not yet been determined upon. It may call for the appointment of a receiver, but the object of it while to conserve the rights of the lessee as against the lainure of the lesse to carry out certain provisions of the pittsourg, St. Louis and Cancago Rairoad contained a guarantee to the effect that thirty per cent of the gross receipts would be set aside (and would be suificent) to meet the interest of \$20,000,000 or bonds. There aving a tree certain disputes between the two parties to this lesser. In this amended lesse was drawn up and signed, in which th 1, inquiry arises as to the possibility of defaults. This inquiry in the case of C. C. and I. C. has a

as possible. The Penn-yivania Rahiway Company, as indorser for Pittsburg, Chicinnati and St. Louis, of course has only the same anothty. Pittaburg, Chicinnati and St. Louis now claims that no proper effort has yet been made by C., C. and I. C. in the direction of the lunding movement promisel, and certainly nothing accomplished. This win help to make up the case of Pittsburg, St. Louis and Cincinnati in its application to the conts for relief in case C., C. and I. C. anothid again default in Feordary in 18 interest upon the second mortgage bonds and so leave the road open to the chances of dorectosure. It is worth while to bear in mind, nowever, in this connection, that most of the second mortgage bonds are held by the Pennsylvania Rahiroad Company, the whole amount authorized not having yet oeen issued, and C., C. and I. C. chaims that Pennsylvania Central do not give it the equal share of through traffic promised in their contract, discriminating on the contrary against them in favor of Fort Wayne, another of the Pennsylvania Company's leased lines. Hence any intredosure proceedings, on the part of the Second mortgage, bondholders will be looked upon with grave suspicion, and the elact measure of the Pennsylvania Rahlroad Company's purpose therein carefully canvassed. The present deot of C. C. and I. C. is said to be \$27,000,000, a considerable portion of it contracted after the supulation in respect to landing the foating debt mad been entered litto.

HANNIBAL AND Sr. JOSEPH.

There was frequent inquiry on Thursday as to the occasion of the flurry in this stock, and it was consequence of the introduction into the Aissoura Legislature of a bilt to repeal the act of last year extending the time for the payment of a large amount of matured bonds. Some noticers, it is state, have aiready turned in their oid bonds and accepted the new bonds issued by the State.

HIGHWAYMEN IN JERSEY CITY.

Yesterday morning, about ball-past one o'clock, Juies J. Stovensi, a resident of Bramhail avenue was passing along a lonely part of Grand street, near Mill Creek, in Jersey City, when two men sprang from behind a fence and walked over to him. They asked him the time and he informed toger a drink, but this was firmly relused. The men then lell upon him and while one clinched him firmly by the throat the other proceeded to search his pockets, stovenal kinched and struggled however till he released nimsell, and then ran to the Fourth precent station. The marks of fingers were plainly visible on his throat, his overcost was forn and his hat order. Officers were despatched in search of the rudians but the search was unsuccessful.
